

DESCRIPTION

The RTN3060B is a black bulb room temperature sensor specifically designed to measure the temperature of radiant heating systems. The sensor housing is wall mounting and made from Flame Retardant Polycarbonate.

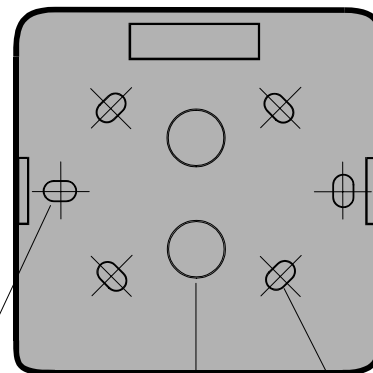

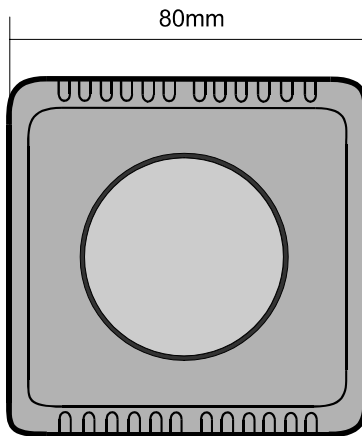

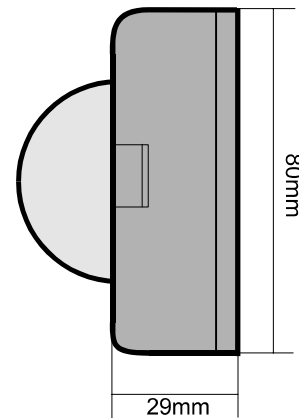

FEATURES

- Aesthetically designed housing for radiant heating systems

SPECIFICATION

Material Body:	Flame Retardant Polycarbonate
Sensing Elements:	2.2K3A NTC Thermistor
Accuracy:	+ 0.2°C @ 70°C Thermistor
Operating Temperature:	30 to + 60°C
Terminals:	1.0mm recommended 2.5mm max
Location:	Wall mounted 1.5m from floor level
Order Code:	RTN3060B

2 x 4mm slots at
61mm centres

2 x 15mm cable
entry knockouts

4 x 5mm slots at
50.05mm pcd
